FOR CLEAR VISION

The permanent ventilation prevents the pane from fogging up.

ALWAYS UP TO DATE

Scratch-resistant and magnetic rear panel in aluminium-silver for quick replacement of your notices.

OPTIMISED DEPTH

Identical in design to the TN/TR model series, but with a depth of 100 mm.

ANGULAR PROFILE

TC series in a simple design with pointed corner joints.

ROBUST AND DURABLE

Vandal-proof locks with patented frost protection ensure long service life.

Model TC 4

Display cases

Top TC display cases

Expressive top display case with ten-year guarantee

TC – a display case in a class of its own in design, quality and functionality. Present important things with understatement using high-quality craftsmanship and anodised or, on request, powder-coated in RAL colours, striking aluminium profiles and toughened safety glass. The permanent ventilation keeps the case and its contents in good condition. The scratch-resistant and magnetic rear panel in aluminium-silver and

vandal-proof locks with patented frost protection ensure long service life. Gas struts with a secure 85° open position ensure ease of use, and the optional LED lighting displays the contents even in the dark. The TC series leaves nothing to be desired, whether as a wall-mounted or free-standing model, in foyers or in front of buildings. Classically elegant and with a ten-year guarantee!

- + Profiles anodised in aluminium-silver colour, with pointed corners and edges
- + Convenient opening thanks to gas struts
- + Permanent ventilation
- + Vandal-proof locks with frost protection
- + Ten year guarantee

Classic shape, expressive corners and striking edges.

Convenient opening upwards via gas struts up to 85°.

Frost-proof vandal-proof locks with 2 keys each, alternatively as triangular locks.

Model TN-CL 2941

Display cases

Top display cases TN CityLight

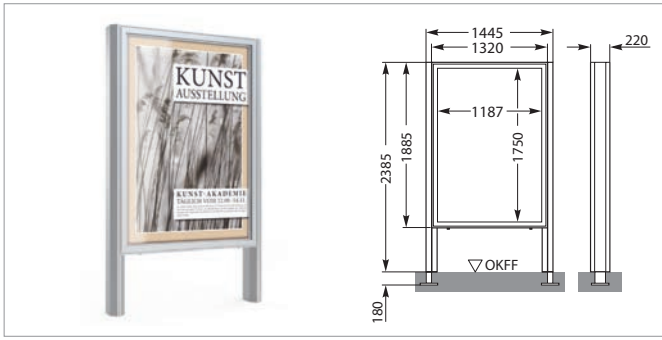

TN CityLight: Feels at home even in the metropolis

If you want to stand out in the city, our CityLight display case is the best choice. Thanks to the stable, maintenance-free aluminium design and weatherproof seal, one can use the product both outside and inside. One can either mount it on a wall or place it on the ground with a stand – thus there are no limits to its placement.

The sash is equipped with gas struts that allow it to open easily and hold it in the open position.

Furthermore, the retractable poster frame not only makes changing posters very easy, but also ensures that your poster is stretched tightly at all times. Finally, the LED lighting ensures that your message is in the right light even late at night.

- + **Sturdy, maintenance-free aluminium design**
- + **Optionally in CLP format or A0 portrait format**
- + **Easy opening of the sash via gas struts, which is held securely in the open position**
- + **With integrated retractable poster frame for easy poster exchange**
- + **Triangular locks, to be locked from below**

Accessories

LED lighting for display cases

Many display cases are also available with built-in LED lighting to ensure that your message reaches its target 24/7.

Compared to conventional lamps, our LED linear luminaires are characterised by **efficient energy consumption** and a simultaneously **long service life**. Replacing the lamps is no longer necessary for years.

Thanks to the **narrow design**, the lighting can also be installed in display cases with a depth of only 60 mm. The display case is very widely illuminated and made accessible to the observer even in the dark.

For optimal legibility of the notices, the colour temperature is **4000 Kelvin (neutral white)**.

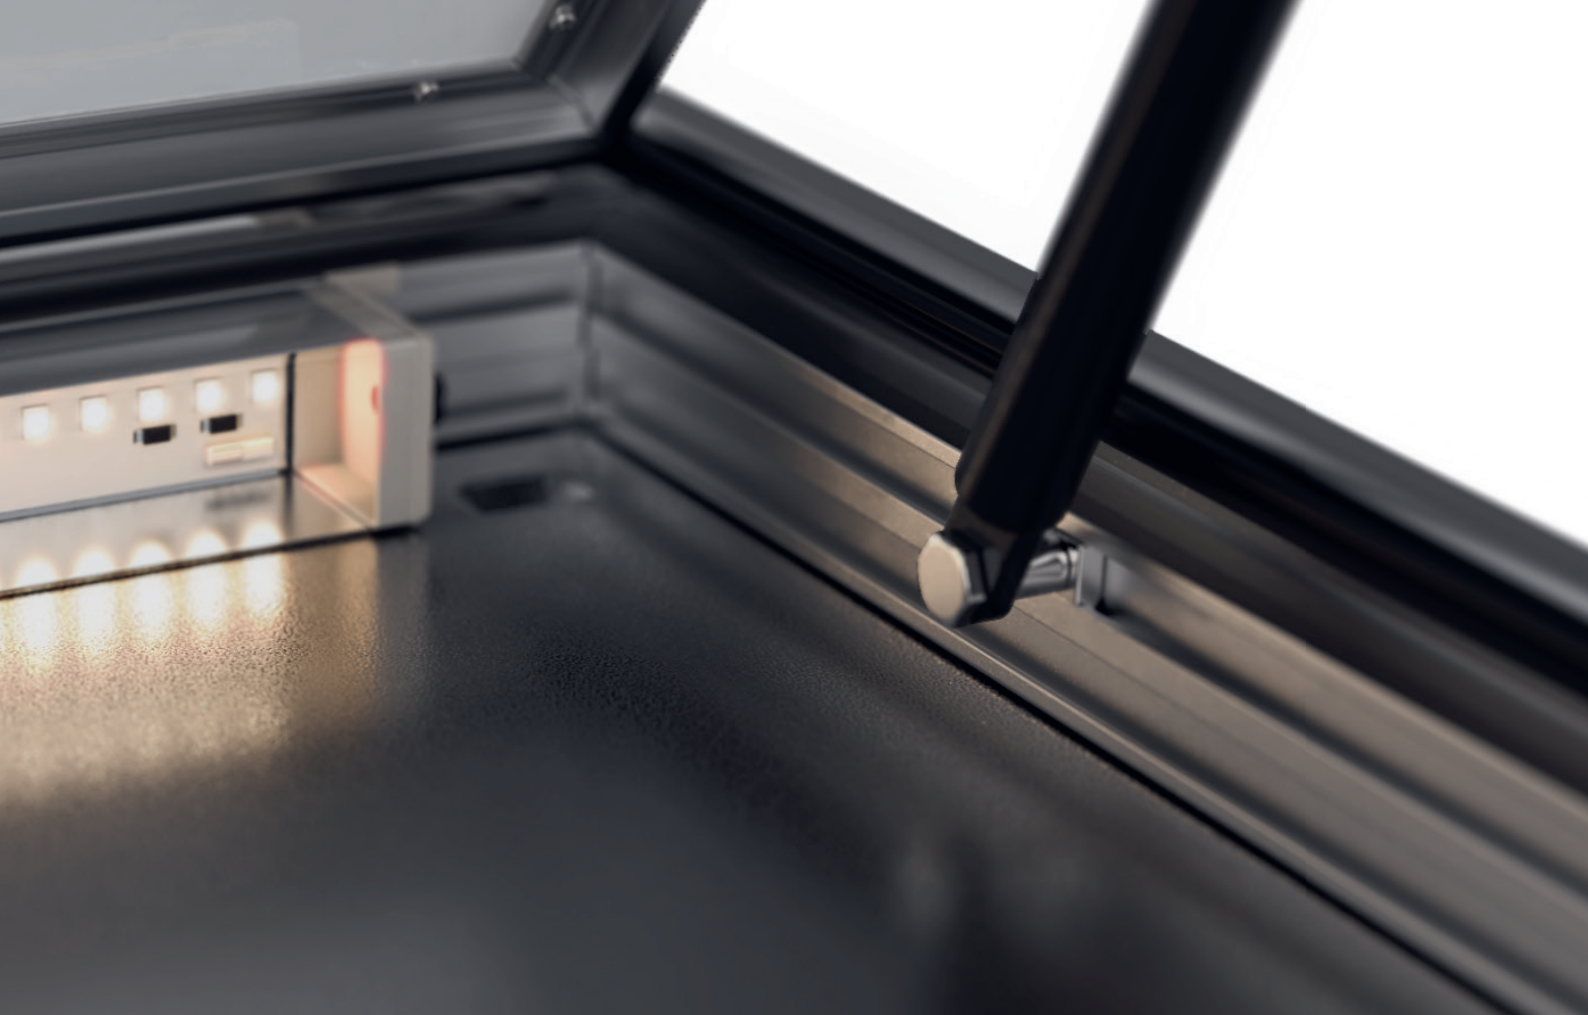

For outdoor display cases, electrical components **should be additionally protected**. When properly installed, the luminaire's closed plastic housing achieves the **IP44 protection rating**. A pressure equalisation membrane ensures uniform pressure inside the housing and thus prevents the penetration of water and dirt particles.

Our LED linear luminaire does not require an external power supply unit or additional earthing and is classified according to **protection class II**.

Advantages of LED technology

- + High efficiency with low energy consumption
- + No fading of notices thanks to UV-free light
- + Shock and vibration resistant, maintenance-free
- + No heat generation
- + Very long service life
- + Compact design

Gas strut

- + Automatically opens sashes upwards and secures them in the open position
- + 2 pieces as retrofit kit from manual prop rod to gas strut operation

Article number: 103000128

ADDITIONAL SECURITY

B1-fire protection certification for all models with toughened safety glass.

ALWAYS UP TO DATE

Scratch-resistant and magnetic rear panel in aluminium-silver for quick replacement of your notices.

ROBUST AND DURABLE

Vandal-proof locks ensure long service life. Also available with triangular locks on request.

Model PN 2

Display cases

Poster display cases PN/PR

The classic, practical poster display case

It is the ideal frame for a poster. The poster display case impresses with its exact fit to DIN A4 to A0 poster media and is therefore perfectly suited for classic posters. With a depth of just 30 mm, it is particularly suitable for narrow corridors, stairwells or railway platforms, i.e., everywhere escape routes should not be impeded. The rainproof hinged door features

toughened safety glass (acrylic glass for DIN A0). The easily accessible locks ensure locking comfort. The optional pair of square tube uprights also offer more flexibility at the installation site. Maximum safety is guaranteed by the MPA fire protection certificate for flame resistance for all models with toughened safety glass.

- + Extremely narrow depth (30 mm)
- + Suitable for narrow places inside and outside
- + Available in exact fit for DIN A4 to A0
- + Toughened safety glass up to DIN A1
- + Wall or stand mounted

Dimensions adapted to DIN poster formats.

Optionally also with round corner joints.

Classic form, expressive corners and edges.

Model FSK 8

Display cases

Softline display cases FSK

Quick presentation of your DIN A4 notices indoors and out

The FSK series offers ample space for 2 to 16 notices in DIN A4 landscape or portrait format and is suitable for wall mounting indoors and outdoors. The just 30 mm deep design in torsion-resistant, silver-coloured anodised aluminium profiles stands out with its modern, rounded softline profile which simultaneously reduces the risk of injury. The hinged door with

toughened safety glass or shatterproof acrylic glass exposes the entire display area and can be conveniently opened and closed by anyone. A lock protects against unauthorised access. You can quickly attach your notices using the magnetic rear panel and five included magnets to immediately inform your employees, customers or guests.

- + Modern rounded softline profile
- + Building material class B1 (flame-retardant) according to DIN 4102-1 for models with toughened safety glass
- + Hinged door with toughened safety glass or acrylic glass (model FSK 16)
- + Magnetic rear panel, white (incl. 5 magnets)
- + Shipment in unbreakable, recyclable cardboard box

Hinged door with toughened safety glass or acrylic glass, magnetic rear panel, white incl. 5 magnets.

Modern 30 mm deep rounded softline profile.

Lock incl. 2 keys.

SIMPLY TAKEN INTO CONSIDERATION

Standard gas struts with automatic locking for comfortable opening and closing.

EXCELLENT PRICE/PERFORMANCE RATIO

The affordable entry-level model for outdoor display cases.

SIMPLE AND ELEGANT

Pragmatic, clear design through angular aluminium construction with high-quality anodisation in alu-silver.

Model E 15

Display cases

Economy E display cases

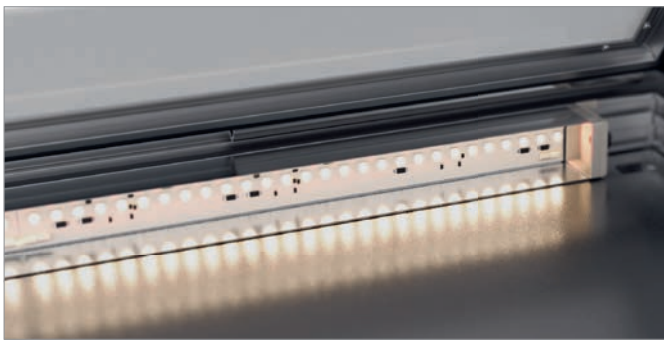

The entry-level model: Top quality at an unbeatable price

Your choice as a solid, low-priced entry-level model: the E display case. The torsion-free, angular aluminium construction in a high-quality anodised finish (alu-silver) highlights its pragmatic, clear design. The front pane made of toughened safety glass with weatherproof rubber seal ensures optimum protection against wind and weather. Thanks to the stan-

dard gas struts and the automatic locking mechanism, the hinged door can be opened effortlessly and smartly locked with a lock. The upward opening of the hinged door enables weather-protected exchange and adjustment of the notices. These are designed to fit the size of the practical, optionally available acrylic Klemmfix pockets (with heading).

- + Excellent price-performance ratio
- + Standard gas struts for door opening
- + Wall and stand mounting possible
- + Particularly suitable for notices in Klemmfix pockets
- + Incl. text bar made of white acrylic (unlabelled)

Large range of accessories: LED linear luminaires, stand mounted, acrylic glass Klemmfix pockets and much more.

All these features as standard: gas struts, locks with 2 keys each, text bar made of white acrylic glass and 10 adhesive magnets.

Display cases

Softline SSK display cases

Essential and useful information presented safely and attractively

The SSK series offers space for 8 to 18 of your notices in DIN A4 portrait format and is suitable for indoor wall mounting. The design in silver-coloured anodised aluminium profiles is just 30 mm deep and reduces the risk of injury with its modern Softline profile. The sliding doors with toughened

safety glass are conveniently guided on black plastic runners. A glass plunger lock protects against unauthorised access. You will have your notices up in no time using the magnetic rear panel and four supplied magnets, and your employees, customers or guests will be engagingly informed.

- + Modern, rounded softline profile
- + Dimensions in DIN A4 sizing
- + Lockable sliding doors in toughened safety glass
- + Magnetic rear panel, white (incl. 5 magnets)
- + Shipment in unbreakable, recyclable cardboard box

Dimensions in practical DIN A sizing.
Space for up to 18 A4 sheets.

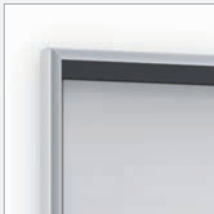

Lockable sliding doors in toughened safety glass.

Modern, rounded softline profile.

SSK 18

CLEVERLY HARMONISED

Optimised for posting in practical A4 format for up to 27 A4 sheets.

MODERN AND SECURE

Optionally with pointed corner connectors or rounded corner connectors in die-cast zinc.

ADDITIONAL SECURITY

B1-fire protection certification for all alu-silver coloured models with toughened safety glass.

PRACTICAL ACCESSORIES

White text strip incl. lettering available as additional option.

EASY TO OPEN

Convenient and safe opening and closing thanks to roller-bearing sliding doors in toughened safety glass with slide rail pressure cylinder lock.

Model SN 9

Display cases

Sliding door SN/SR display cases

Perfect presentation: The premium sliding door display case

Our premium model SN/SR is a first-class combination of quality, safety and design. Torsion-resistant aluminium profiles and the toughened safety glass doors, which run on ball bearings on the guide rail for particularly convenient opening, make it the professional choice for all requirements. Particularly suitable for confined spaces - since no doors are swung open.

The mechanical pressure cylinder lock provides more security and a high level of locking comfort by clamping directly onto the metal rail. The optionally available white text bar gives the display case a meaningful heading and even from a distance provides the viewer with initial information about its contents.

- + Convenient opening via ball bearing doors
- + Lockable by mechanical pressure cylinder lock
- + 4 mm toughened safety glass
- + Tested flame resistance (B1) for all aluminium-silver coloured models with toughened safety glass
- + White text strip for long-distance effect optionally available

Convenient opening thanks to sliding glass doors with roller bearings.

Timeless pointed aluminium profiles.

For accident prevention (impact protection) with round corner joints.

Mechanical pressure cylinder lock engages directly on the metal rail.

Display cases

Hinged door GN/GR display cases

Maximum convenience: Our premium GN/GR display case

Our premium GN/GR model is a first-class combination of quality, safety and design. Torsion-resistant aluminium profiles and toughened safety glass doors make it the professional choice for all requirements. All-glass hinged doors in toughened safety glass without an obstructing frame provide maximum viewing area. They feature an opening angle of 180

degrees and thus enable problem-free billposting exchange. The lock provides enhanced security and a high level of locking convenience. The white text bar gives the display case a meaningful heading and, even from a distance, provides the viewer with initial information about the showcase contents.

- + All-glass hinged doors in toughened safety glass
- + 180 degree opening angle of the doors
- + Tested flame resistance (B1) for all aluminium-silver coloured models
- + Overall depth 60 mm, usable inner depth 35 mm
- + White text strip for long-distance effect optionally available

Timeless pointed aluminium profiles.

Hinged doors with an opening angle of 180° for convenient access to the entire display area.

Optionally also available with round corner joints in die-cast zinc.

Vitrines

Our vitrines ensure professional and secure display of your products and exhibits. Valuable objects can be easily arranged on the safety glass shelves (infinitely height-adjustable) and the theft-protected all-glass doors can be locked with the pressure cylinder lock .

Our vitrines are available in different dimensions, as a floor-standing or wall-mounted system, with or without a base cabinet.

ADDITIONAL STORAGE SPACE

HERE: Factory 500 model with separately lockable base cabinet in light grey.

WELL ILLUMINATED

Standard LED lighting in all display cases for even illumination of your exhibits.

UNPACK, PUT IN PLACE, READY

No kit. Including infinitely height-adjustable shelves made of toughened safety glass.

Modell Factory 400

Vitrines Factory

Your products and exhibits optimally presented

The Factory vitrine series presents products and exhibits in the best light. Factory vitrines feature a very stable aluminium structure in an elegantly rounded softline design with anodised aluminium-silver coloured surface. Toughened safety glass doors offer protection and optimum adjustment comfort. Your products or exhibits find ample place on the infinitely height-adjustable shelves made of toughened safety glass

with ten kilogram load capacity. Mechanical plunger cylinder locks provide more security and a high level of locking comfort. Factory vitrines are available in different dimensions, as a floor-standing or wall-mounted system, with or without a base cabinet. All models are delivered ready for deployment and with modern LED lighting.

- + Anodised aluminium-silver coloured
- + Toughened safety glass
- + Toughened safety glass shelves, infinitely height adjustable
- + Adjustable feet for optimal stand
- + LED interior lighting as standard

Low-voltage LED interior lighting as standard in all models.

Mechanical plunger cylinder locks with two keys each.

Secure and optimal stand thanks to adjustable feet.

Infinitely height-adjustable toughened safety glass shelves.
